Welcome, EcoMystery Explorer!

Hello! My name is **Ekko**!

I'm so glad you're here!

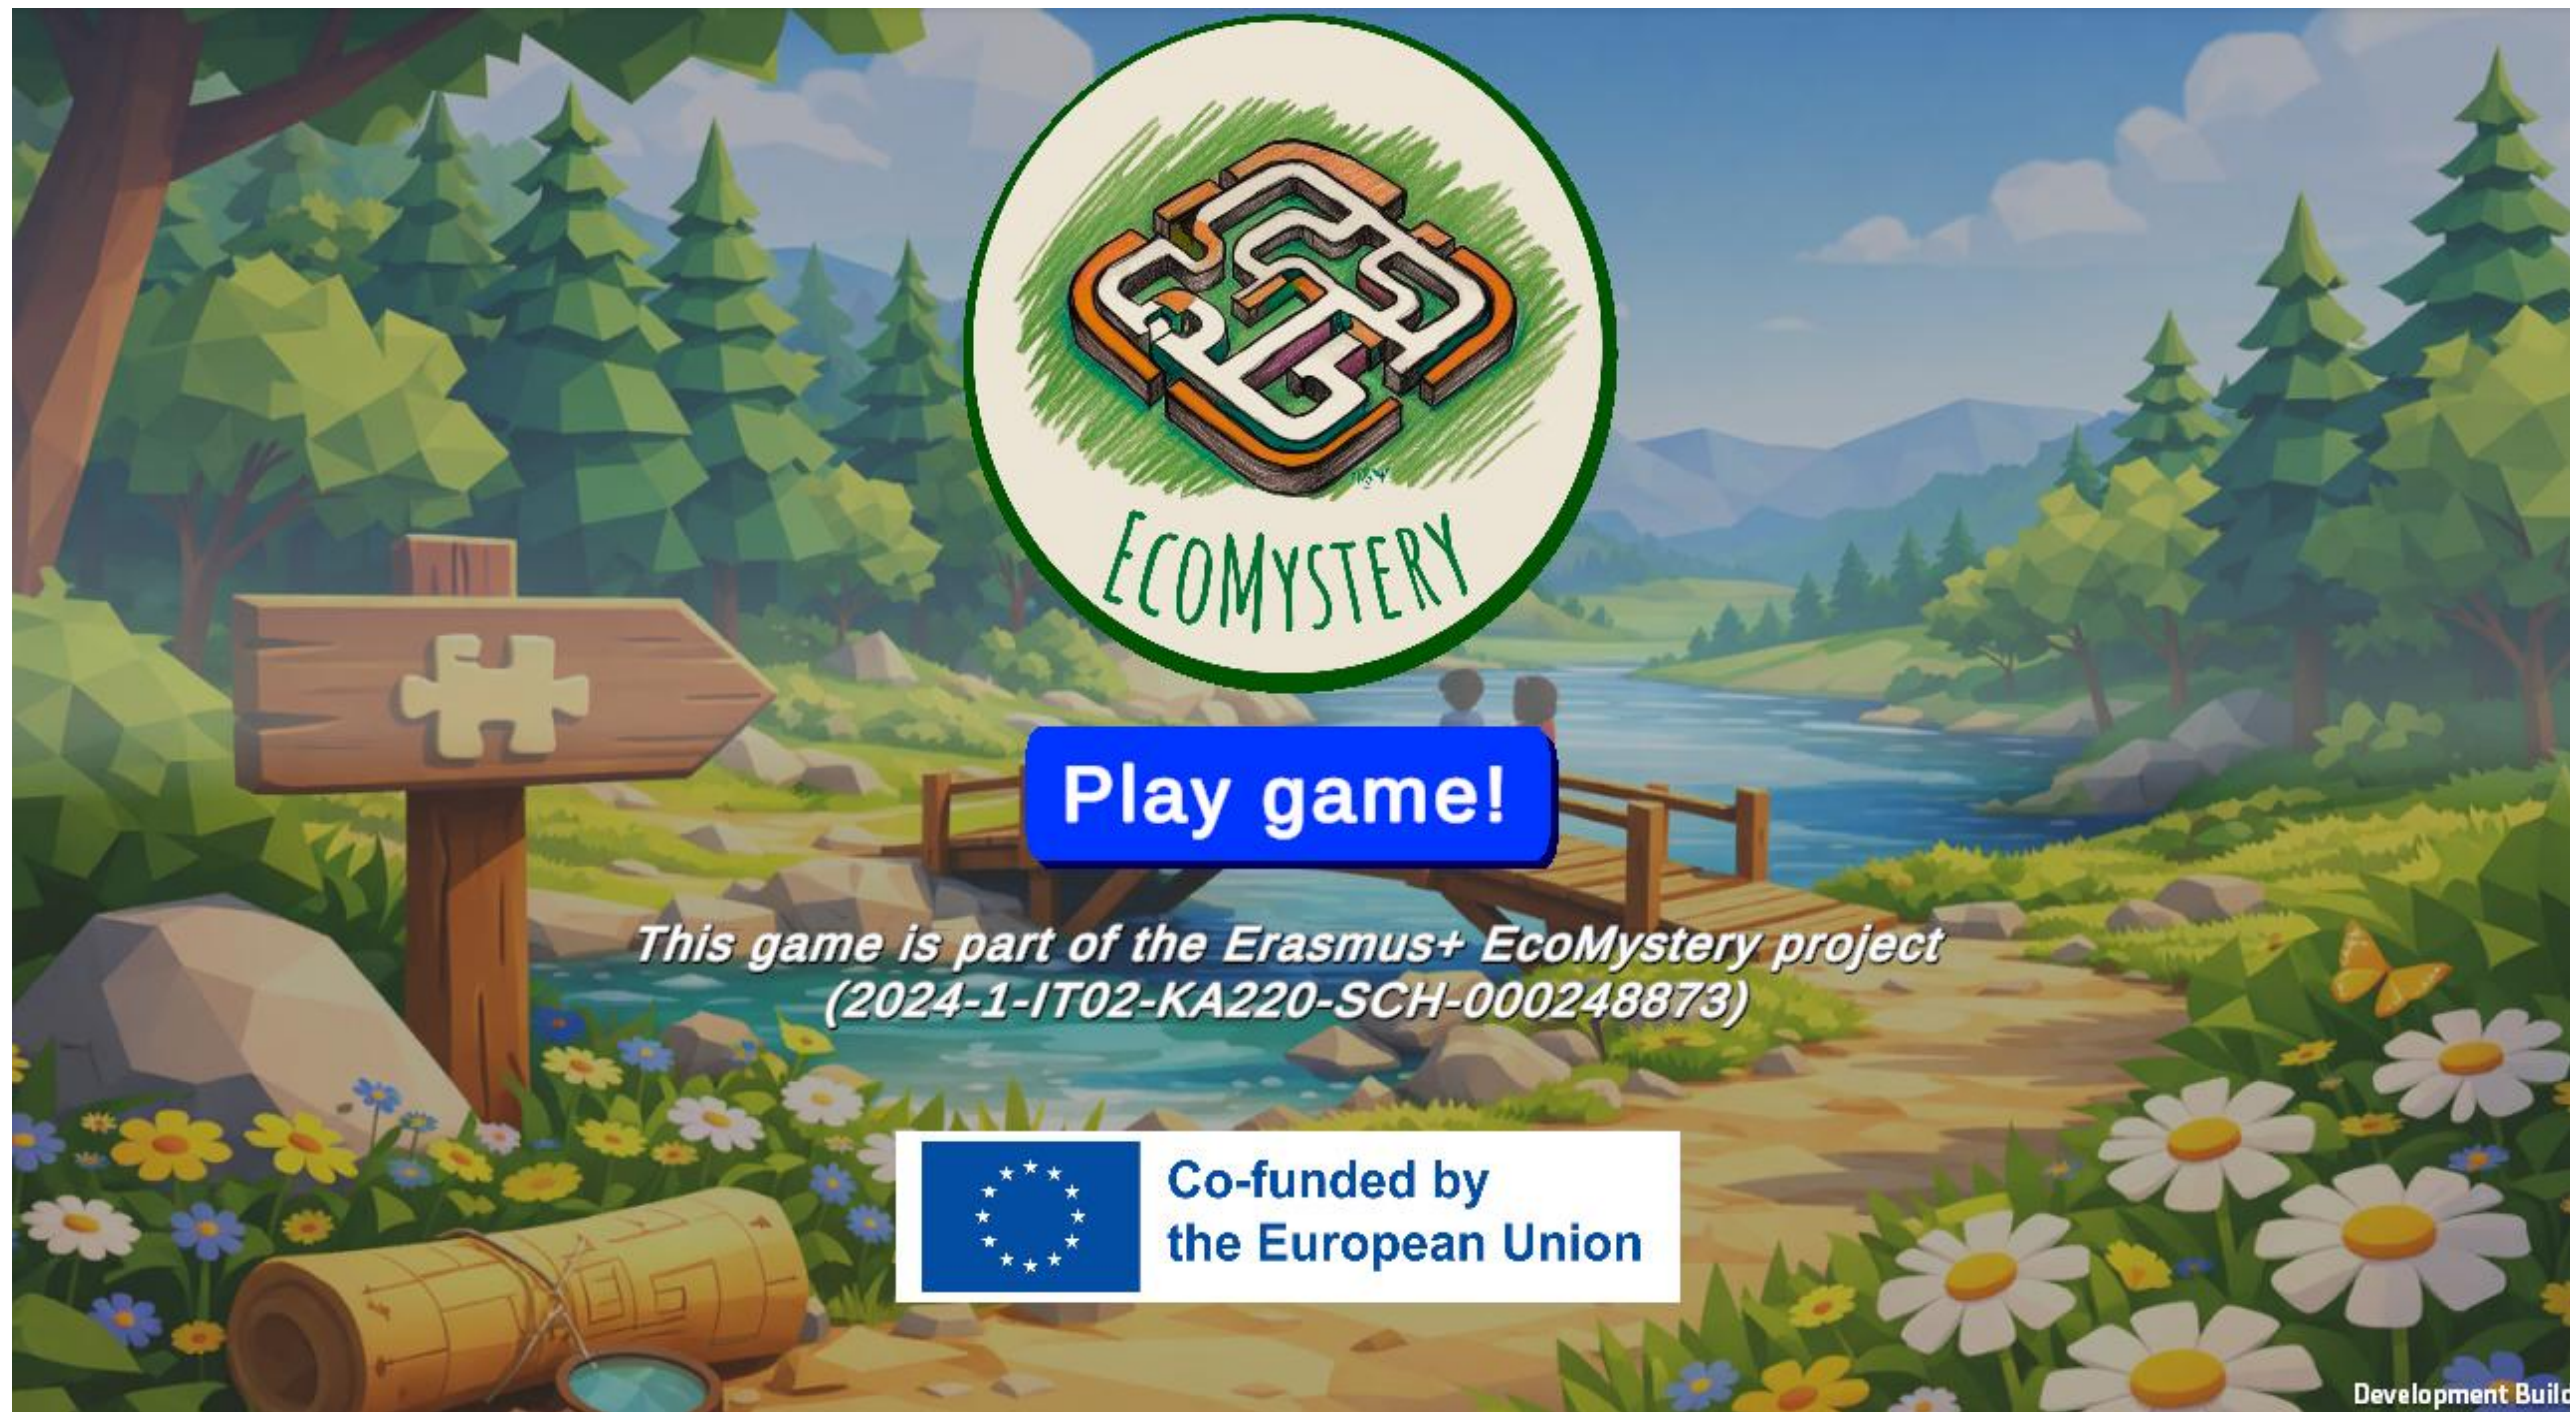

Before we enter the real **EcoMystery mission**, we need to get ready. I will guide you step by step, so you can learn how to move through the platform, look for clues, and interact with the world around you.

This is the first step of our journey. The mystery is waiting...

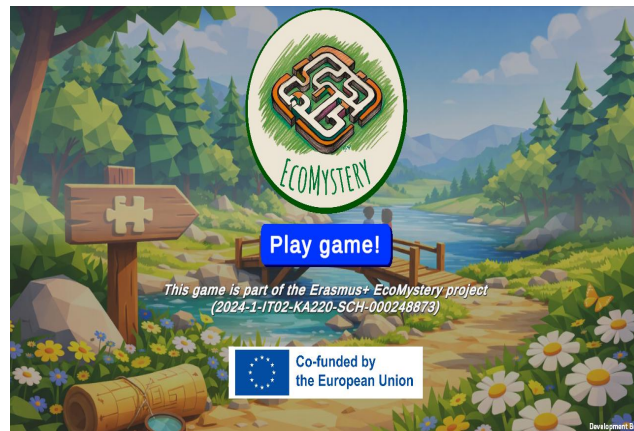

Let's begin together!

The EcoMystery World

The EcoMystery World

Welcome to the **EcoMystery world!**

This is where our journey begins. Here, the activities you have explored in the “**Escape the Climate Crisis**” coursework become part of a real digital adventure.

First, you will learn how to use the platform. Then, you will enter the game and join me in the EcoMystery mission.

When you are ready, click **Play game!**

The Menu

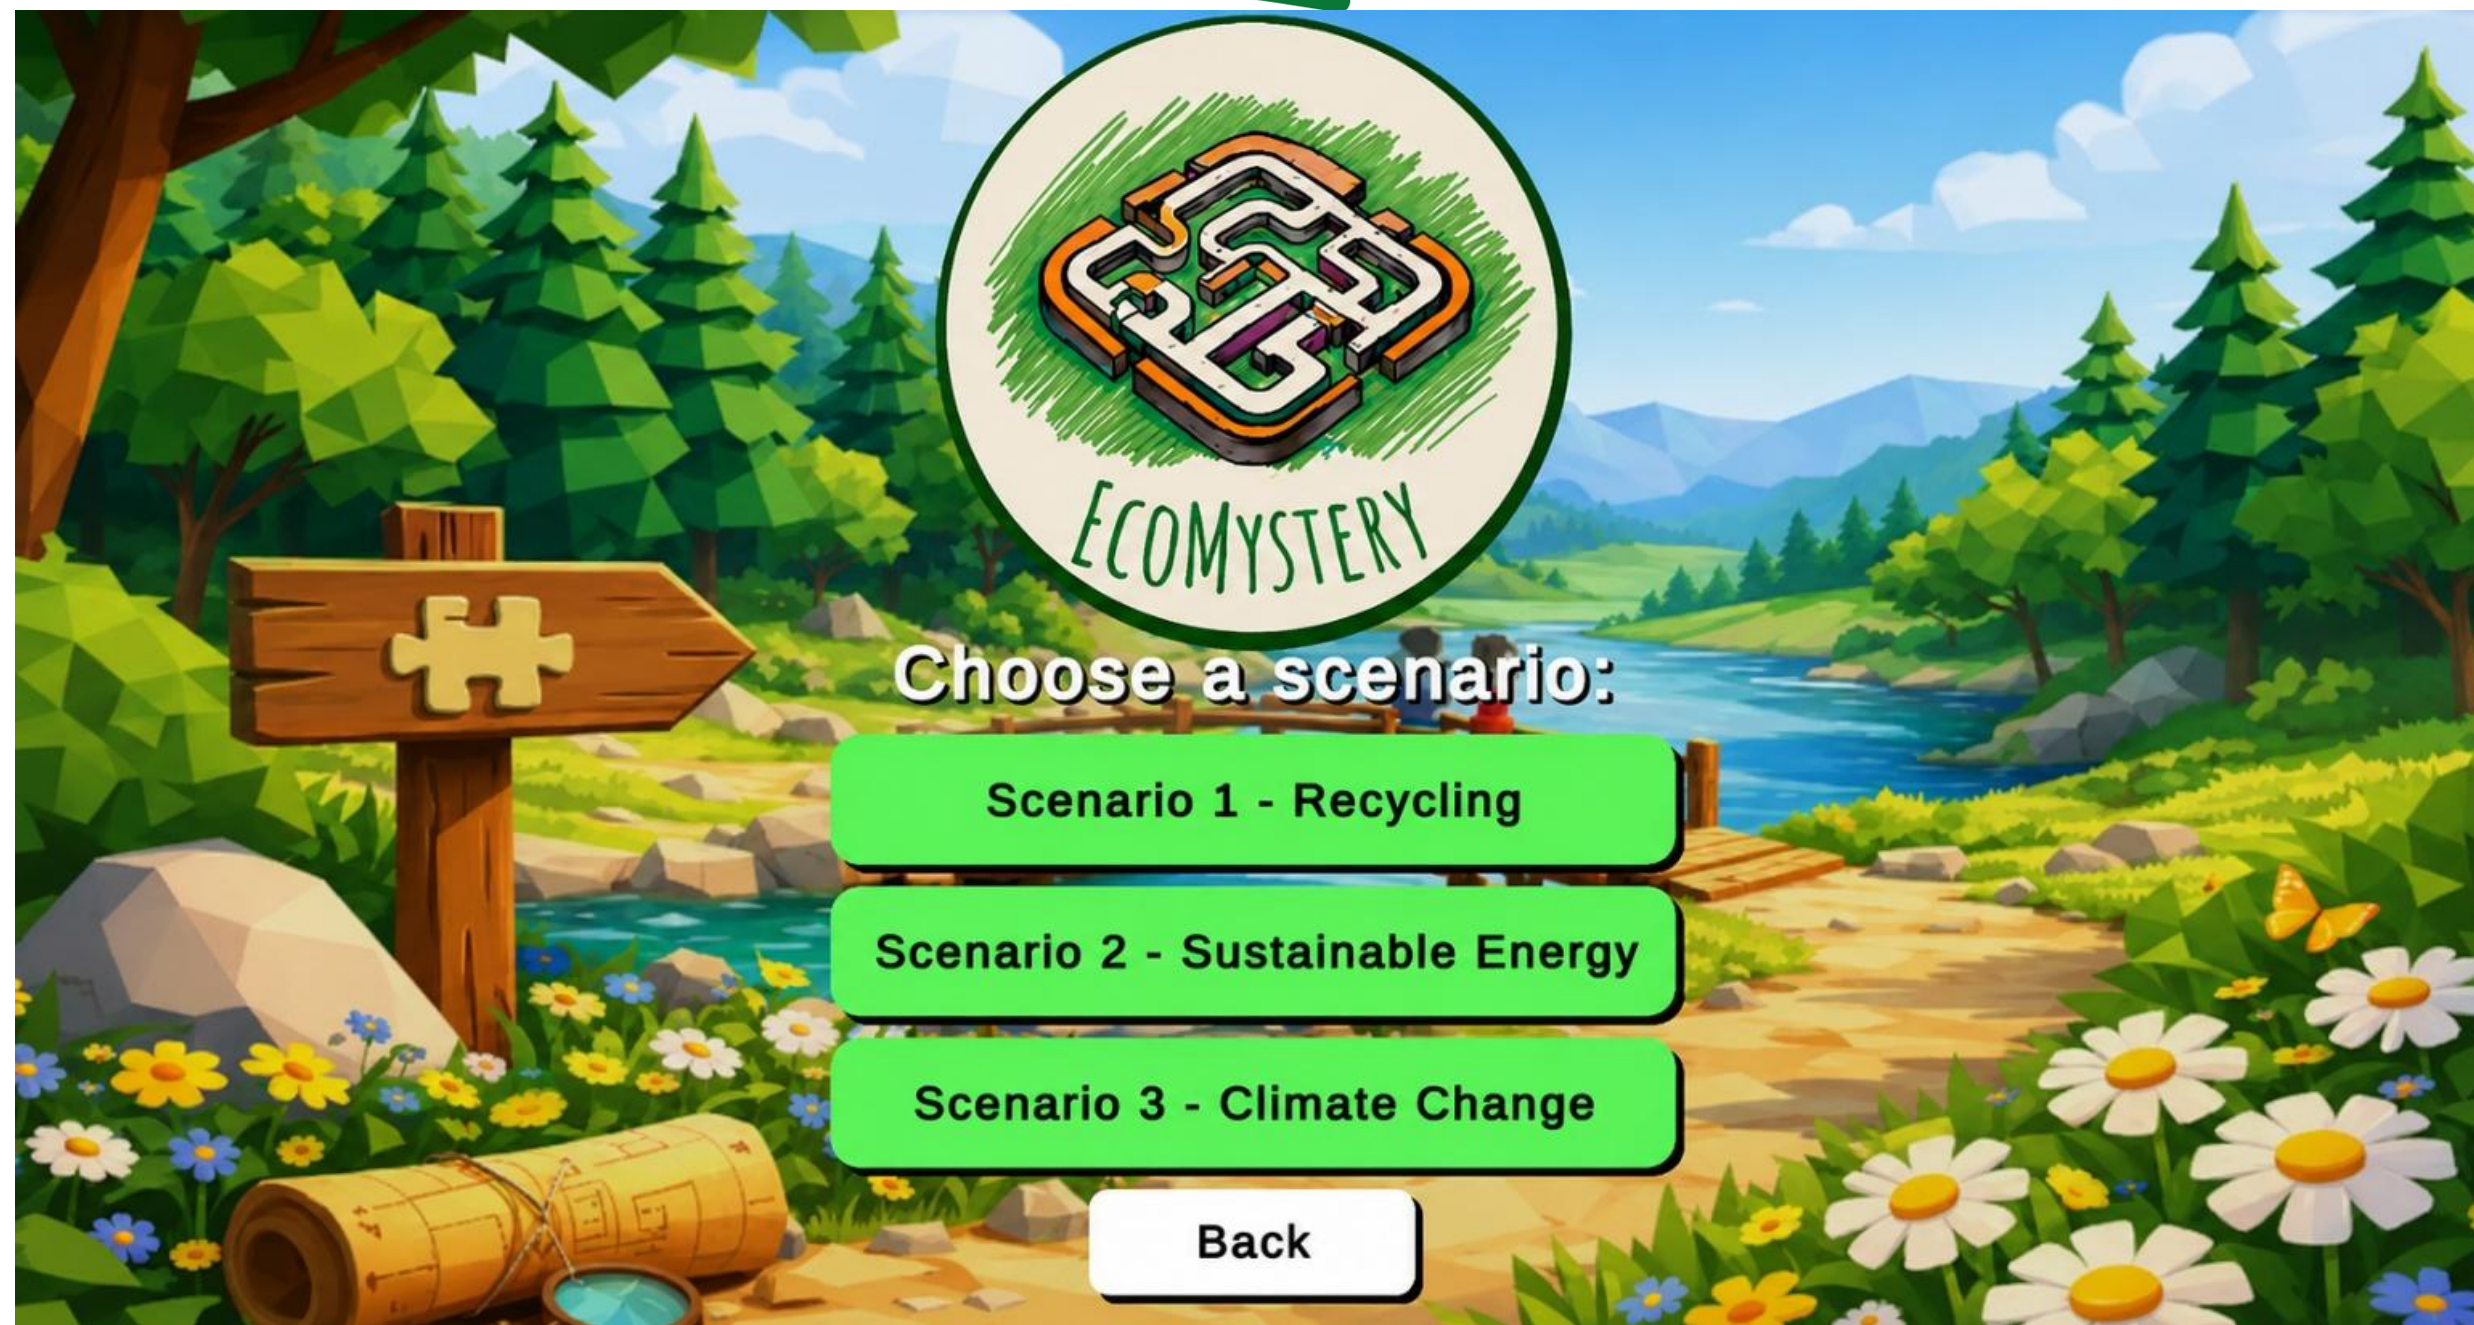

Before we begin, you will be able to choose your **avatar**:
Me or one of my **friends** that live in the **EcoMystery World**!

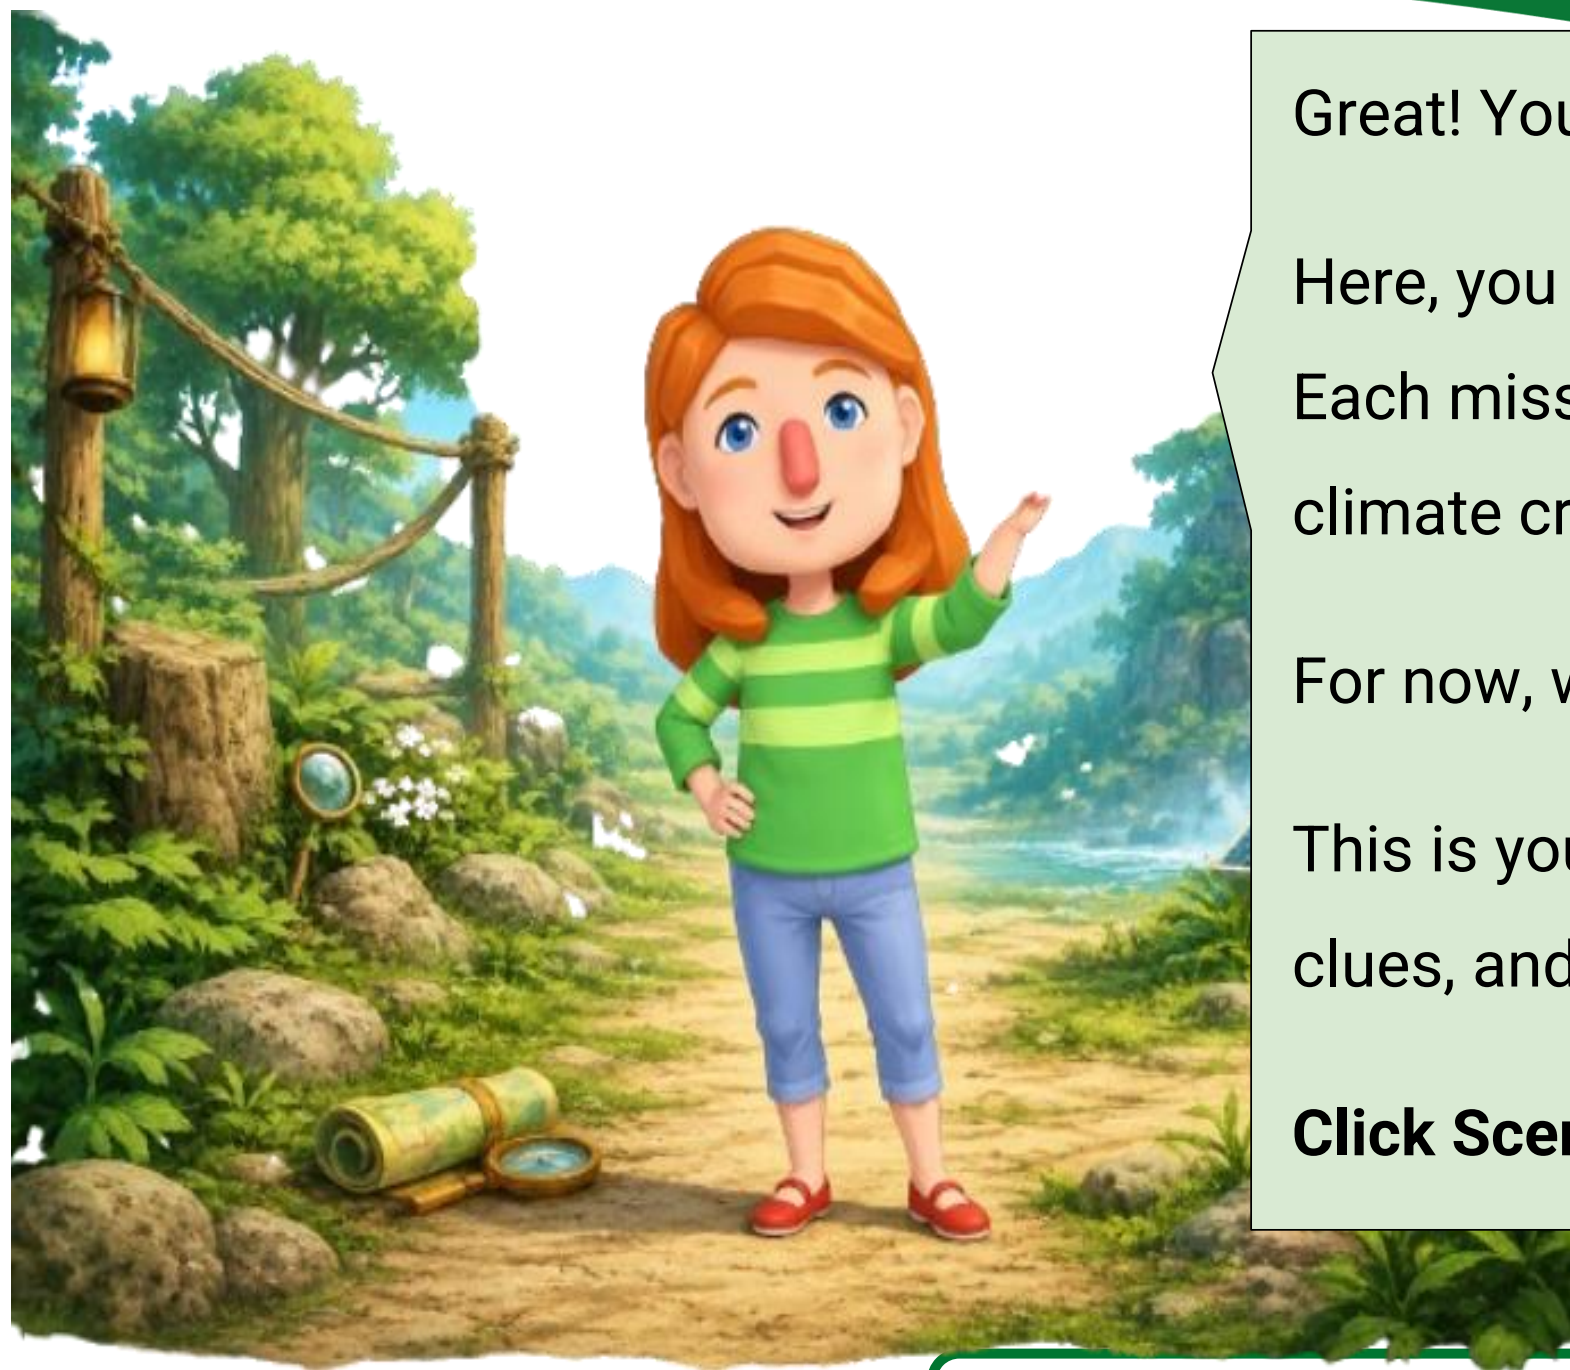

Your avatar is the character that will represent you during the game. You can choose the one you like best from the menu before entering the mission.

Once you choose your avatar, you will be ready to start your journey and enter the EcoMystery world.

Choose your First Mission!

Choose your First Mission!

Great! You have entered the **EcoMystery Platform!**

Here, you can see the different **missions** of the EcoMystery world. Each mission will take you to a new challenge connected with the climate crisis and sustainable everyday choices.

For now, we will begin with **Scenario 1 – Recycling.**

This is your first mission. You will learn how to explore, follow clues, and make the right choices inside the game.

Click Scenario 1 – Recycling when you are ready.

Let's solve it!

That's me! I'll be your guide in the **EcoMystery world**.

When a **box** like this appears, it means you are receiving **important information** about your mission. These pop-up boxes help you understand what is happening in the story and what you need to do next. You should read them and click to accept the task.

In this mission, you are helping Dad clean up before the family leaves for a trip. Read the message carefully, because it tells you your goal.

Before we go inside, let's make sure you know how to move, look around, and interact with the world.

Dad needs your help!

We're going on a family vacation!
Mom is waiting outside, and has already warmed-up the car!
Dad is still inside, cleaning the house and rushing to get everything ready before leaving.
Go into the house and help Dad finish up before our trip!

Let's go help!

Time to Move & Interact!

Before we begin the mission, let's **learn how to move** through the **EcoMystery world**.

You will use the **keyboard** and **mouse** to explore, move, and interact with objects.

Press **W** to move forward

Press **S** to move backward

Press **A** to move left

Press **D** to move right

Press **Shift** to run

Press **Space** to jump

Move your **mouse** to look around

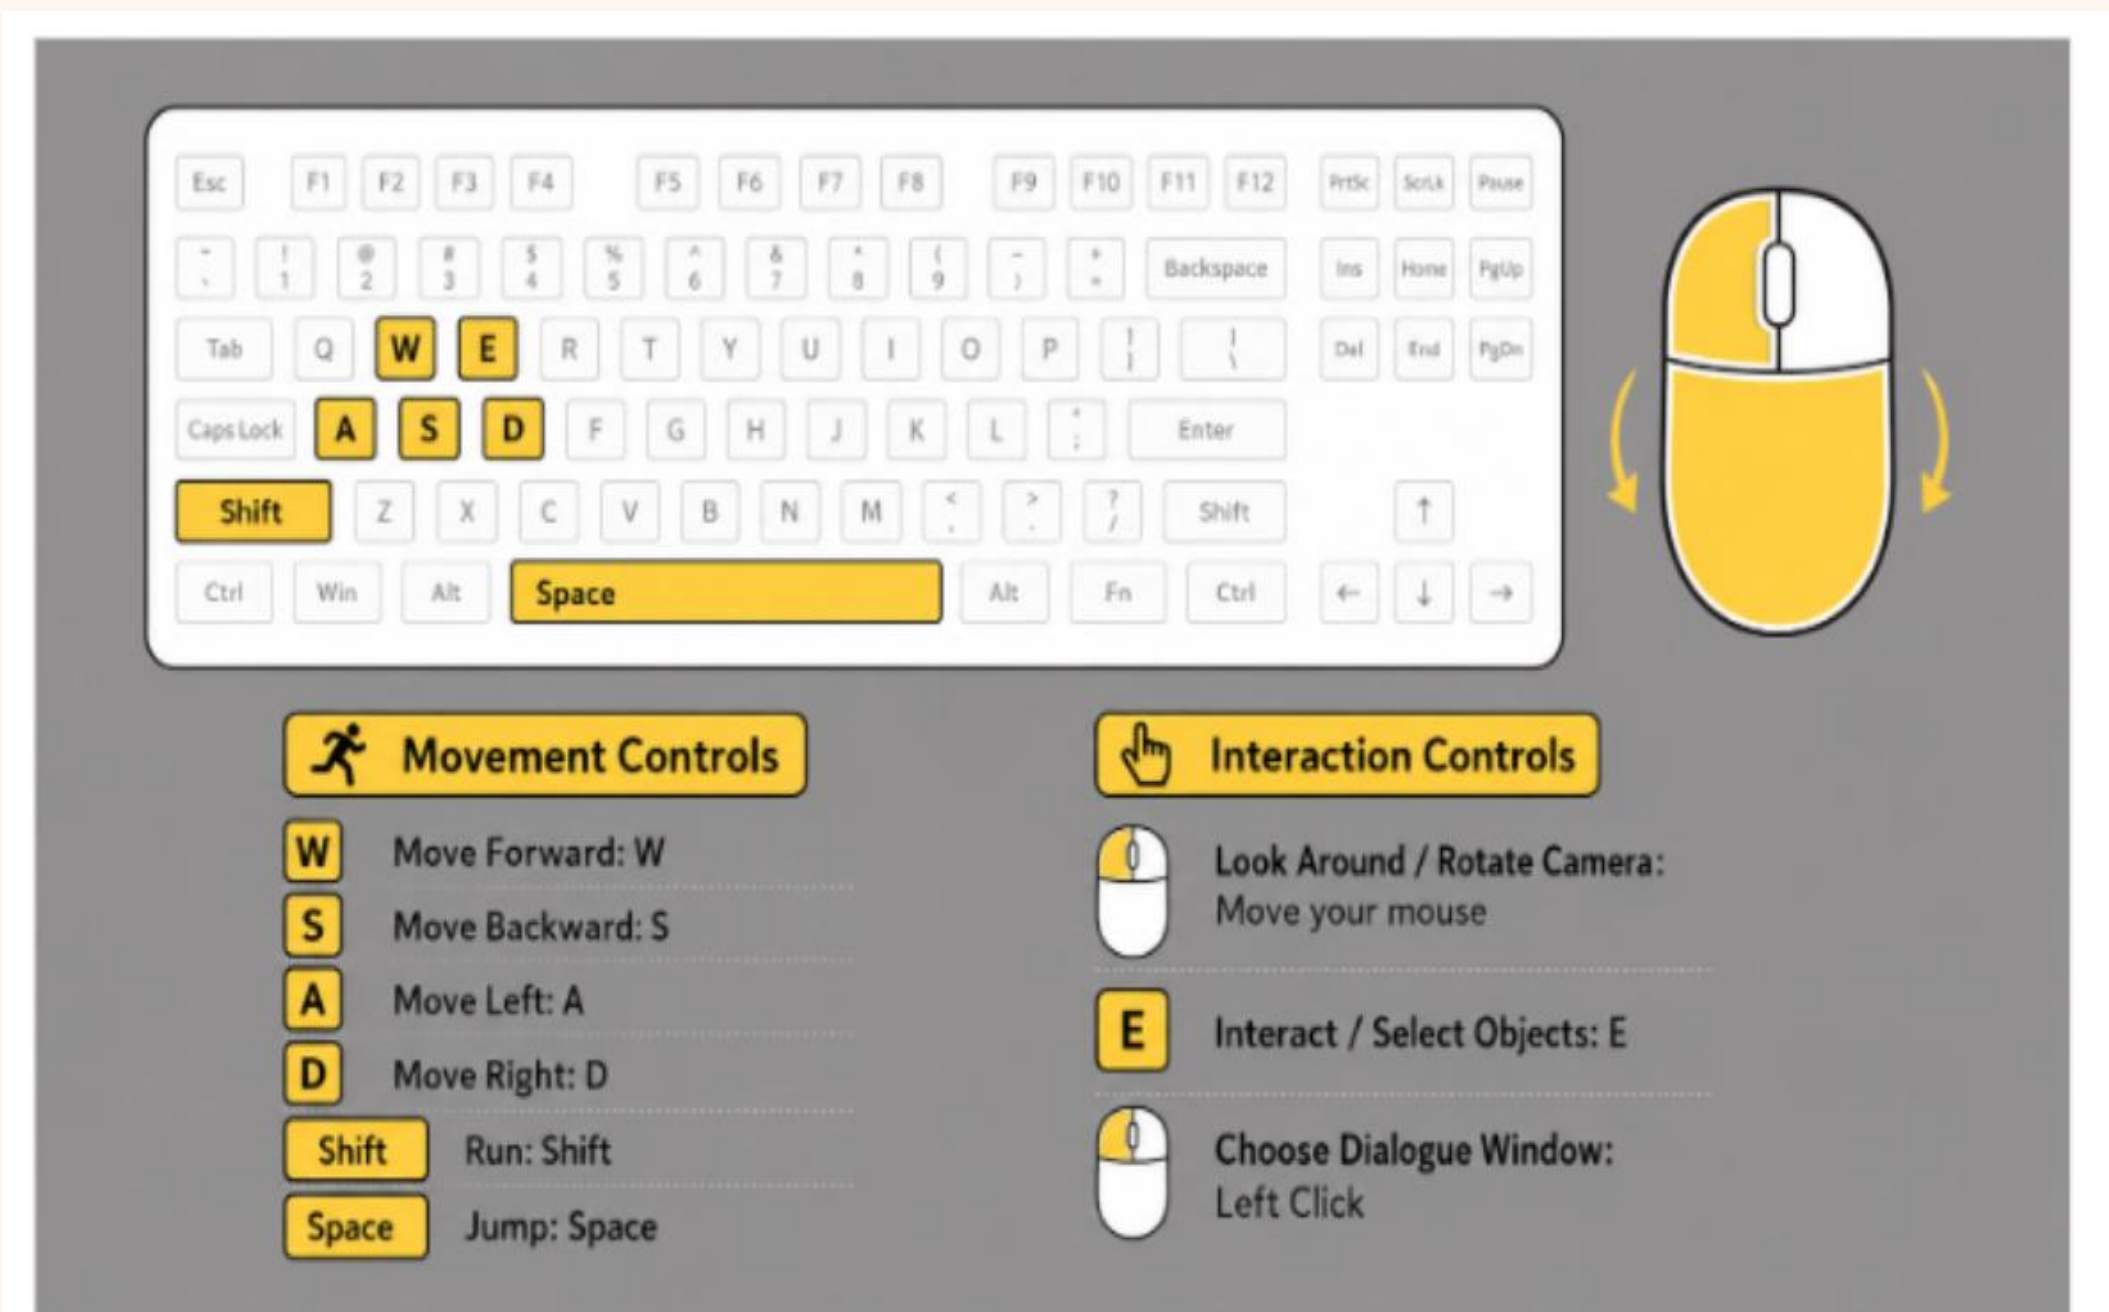

Press **E** to interact with objects

Use **Left Click** to choose an option in a dialogue window

Take a moment to practise these controls.
Once you are ready, you can move toward the door and begin the mission!

Let's get inside!

Let's get inside!

Great! You made it inside the house.

This is the **first room** of your mission. Look around carefully — this is where your task begins. You can already see that **Dad** is busy washing the dishes and getting everything ready before the trip.

Let's go talk to him and find out how we can help.

Talk to Dad

Now we need to **speak with Dad**.

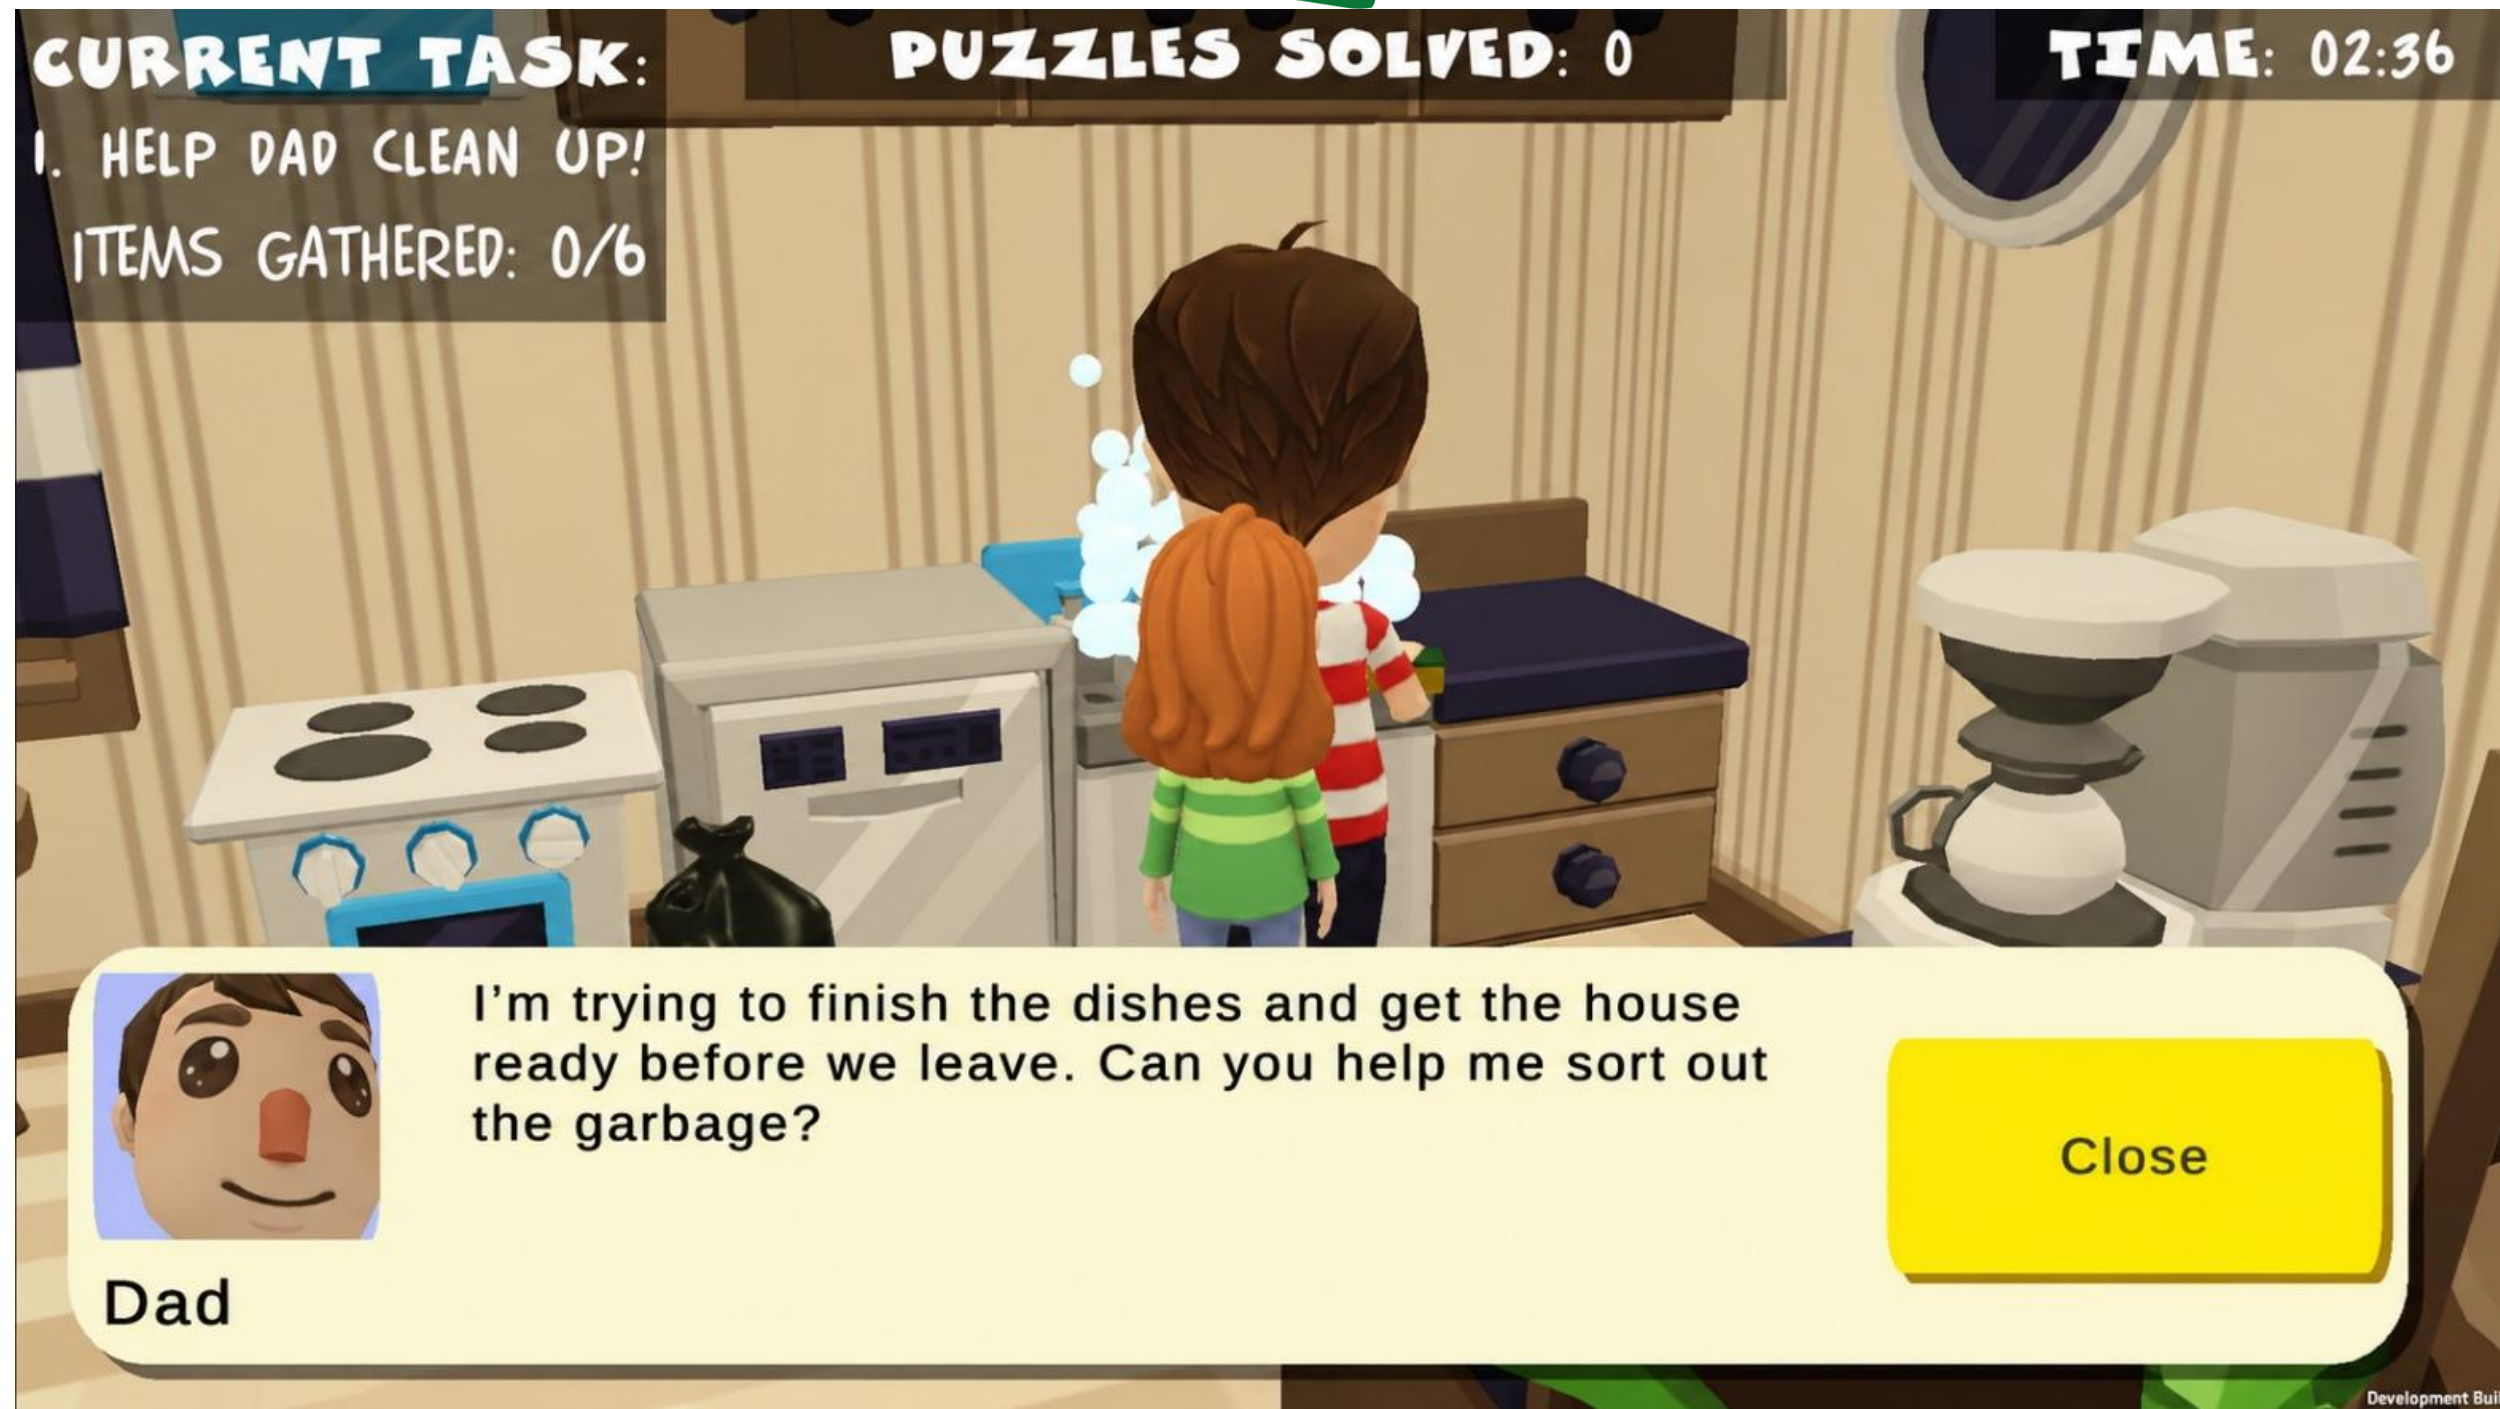

When you interact with a character, a **message box** may appear. These dialogue boxes are important because they explain the **story** and tell you what you need to **do** next.

When you have read carefully all the information, click “Close”.

Let's see what Dad needs help with.

Read the Task

Read the Task

Dad has explained the mission.

He is trying to **finish** the **dishes** and get the house ready before the family leaves. He needs help cleaning up the room.

Our task is to **find the objects** around the room and place them in the **correct bin** or **storage container**.

So now the challenge begins: explore the room, look for the items, and make the right choices!

Can you help Dad?

Now it's your turn to help!

Look around the room carefully and search for the objects that need to be cleaned up. Once you find an object, think about where it belongs.

Choose the correct bin and place the item inside.

Remember: every object belongs somewhere, and good choices help keep the home – and the environment – clean.

Well done, explorer! By helping Dad clean up, you are already learning how **everyday choices can make a difference!** Let's keep going and see what comes next!
